# PREFACE

This publication contains a list of manufacturers authorized by Governments to manufacture narcotic drugs and psychotropic substances. The list is brought up to date and reissued on an annual basis by the Secretariat of the Commission on Narcotic Drugs.

The list was first published pursuant to provisions of article 20 of the 1931 Convention for Limiting the Manufacture and Regulating the Distribution of Narcotic Drugs; it was continued under the provisions of that Convention as amended by the 1946 Protocol; and is now issued by decision of the Commission on Narcotic Drugs on the basis of information supplied pursuant to article 18 of the Single Convention on Narcotic Drugs, 1961, and of that Convention as amended by the 1972 Protocol, and article 16 of the Convention on Psychotropic Substances. The contents of the present list are based on data provided to the Secretary-General, by States both parties and non-parties to the relevant treaties on the control of narcotic drugs and psychotropic substances, in the annual reports for 1993 on the working of the international drug control treaties.

The list is presented on a country-by-country basis in two columns. The name of each authorized manufacturer is given in English alphabetical order in the first column; if the address of the manufacturer has been made available to the Secretary-General, this information is also given in that column. The second column shows which narcotic drugs or psychotropic substances the manufacturer was authorized to manufacture; narcotic drugs and psychotropic substances which were reported to have been in fact manufactured during the year are indicated with an asterisk. An index in English, French and Spanish of all substances under international control reported to have been actually manufactured during the year appears at the end of the publication, indicating the country or countries in which manufacture took place and the manufacturers involved. A number appearing after the name of the country given in the index refers to the manufacturer listed under that number in the country list of manufacturers.

The present publication is complete in itself, and may also be used in conjunction with the "Multilingual Dictionary of Narcotic Drugs and Psychotropic Substances" (ST/NAR/1/Rev.1) and with the "Competent National Authorities under the International Drug Control Treaties" (ST/NAR.3/1994/1), which lists in part I titles and addresses of competent national authorities empowered to issue certificates and authorizations for the import and export of narcotic drugs and psychotropic substances.

The designations employed and the presentation of material do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area or any authority, or concerning the delimitation of any frontiers or boundaries.

# PREFACE

Le présent document contient une liste des entreprises autorisées par les gouvernements à fabriquer des stupéfiants et des substances psychotropes. Cette liste est mise à jour et publiée à nouveau chaque année par le Secrétariat de la Commission des stupéfiants.

La liste a d'abord été publiée conformément aux dispositions de l'article 20 de la Convention de 1931 pour limiter la fabrication et réglementer la distribution des stupéfiants. La publication s'est poursuivie en vertu des dispositions de ladite Convention telle que modifiée par le Protocole de 1946; elle a lieu maintenant à la suite d'une décision de la Commission des stupéfiants, sur la base des renseignements fournis en vertu de l'article 18 de la Convention unique sur les stupéfiants de 1961, de cette même Convention telle que modifiée par le Protocole de 1972, et de l'article 16 de la Convention de 1971 sur les substances psychotropes. Le contenu de la présente liste se fonde sur les données communiquées au Secrétaire général, par des Etats, parties et non parties aux conventions sur les stupéfiants et sur les substances psychotropes, dans les rapports annuels pour 1993 concernant l'application des traités internationaux sur le contrôle des stupéfiants.

La liste est présentée pays par pays sur deux colonnes. La première colonne donne, par ordre alphabétique anglais, les noms de toutes les entreprises autorisées; chaque fois que l'adresse de l'entreprise a été communiquée au Secrétaire général, ce renseignement figure également dans cette colonne. La deuxième colonne indique les stupéfiants ou substances psychotropes que l'entreprise était autorisée à fabriquer; les stupéfiants et substances psychotropes dont les rapports signalent qu'ils ont été effectivement fabriqués pendant l'année en question sont marqués d'un astérisque. Un répertoire en anglais, français et espagnol, de toutes les substances placées sous contrôle international qui, selon les rapports, ont été effectivement fabriquées en cours d'année, figure à la fin de la publication, avec l'indication des pays où la fabrication a eu lieu et des entreprises responsables de cette fabrication. Le chiffre qui suit le nom d'un pays indiqué dans le répertoire renvoie à l'entreprise marquée de ce chiffre dans la liste des entreprises par pays.

La présente publication est complète en elle-même; elle peut aussi être utilisée conjointement avec le "Dictionnaire multilingue des stupéfiants et des substances psychotropes" (ST/NAR/1/Rev.1) et avec la publication "Autorités nationales compétentes au titre des traités internationaux concernant le contrôle des drogues" (ST/NAR.3/1994/1), laquelle contient dans la partie I une liste de titres et adresses des autorités nationales habilitées à délivrer des certificats et des autorisations pour l'importation et l'exportation des stupéfiants et des substances psychotropes.

Les appellations employées dans la présente publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

# PREFACIO

La presente publicación contiene una lista de fabricantes autorizados por los gobiernos para fabricar estupefacientes y sustancias sicotrópicas, lista que la Secretaría de la Comisión de Estupefacientes actualiza y reimprime anualmente.

Esta lista se publicó por primera vez en cumplimiento de lo dispuesto en el artículo 20 de la Convención Internacional de 1931 para limitar la fabricación y reglamentar la distribución de estupefacientes; se siguió publicando de conformidad con lo dispuesto en el texto de esa misma Convención modificada por el Protocolo de 1946; y se publica actualmente por decisión de la Comisión de Estupefacientes sobre la base de la información que se suministra en cumplimiento del artículo 18 de la Convención Unica de 1961 sobre Estupefacientes y de esa Convención enmendada por el Protocolo de 1972, así como del artículo 16 del Convenio sobre Sustancias Sicotrópicas. El contenido de la presente lista está basado en los datos comunicados al Secretario General, por Estados Partes y Estados no Partes en los tratados pertinentes sobre fiscalización de estupefacientes y sustancias sicotrópicas, en los informes anuales para 1993 relativos al funcionamiento de los tratados internacionales sobre fiscalización de drogas.

La lista está ordenada por países y aparece en dos columnas. En la primera columna figuran por orden alfabético inglés los nombres de los fabricantes autorizados; cuando se ha comunicado al Secretario General la dirección del fabricante, esos datos figuran también en esta columna. En la segunda columna se indican los estupefacientes o sustancias sicotrópicas que el fabricante estaba autorizado a fabricar; con un asterisco se indican los estupefacientes y sustancias sicotrópicas que, según se notificó, han sido efectivamente fabricados durante el año considerado. Al final de la publicación figura un índice en inglés, francés y español de todas las sustancias sometidas a fiscalización internacional que, según se notificó, han sido efectivamente fabricadas durante ese año, y se indica el país o países en donde se efectuó esa fabricación y los fabricantes que intervinieron en ella. El número que figura en el índice después del nombre del país remite al fabricante al que corresponde ese número en la lista de fabricantes de ese país.

Aunque la presente publicación es de por sí completa, puede utilizarse también en combinación con el "Diccionario Multilingüe de los Estupefacientes y las Sustancias Sicotrópicas" (ST/NAR/1/Rev.1) y con la publicación "Organismos Nacionales Competentes en virtud de los Tratados Internacionales de Fiscalización de Drogas" (ST/NAR.3/1994/1), en la cual figuran en la Parte I los nombres y las direcciones de los organismos nacionales competentes que están facultados para emitir certificados y autorizaciones de importación y exportación de estupefacientes y sustancias sicotrópicas.

Las denominaciones empleadas en esta publicación y la forma en que aparecen presentados los datos que contiene no implican, de parte de la Secretaría de las Naciones Unidas, juicio alguno sobre la condición jurídica de ninguno de los países, territorios, ciudades o zonas citados o de sus autoridades, ni respecto de la delimitación de sus fronteras o límites.
